Professional Summary

Versatile and highly motivated Bachelor of Arts student (Computer Science focus) at Wilfrid Laurier University, eligible for the Canada Summer Jobs (CSJ) program. Seeking the Full Stack Web Developer position at the Prepr Foundation. Offers a strong foundation in full-stack web architectures, database design (SQL/PostgreSQL/SQLite), and digital accessibility, combined with a track record of delivering 1,400+ custom digital assets with a 4.8/5.0-star rating. Passionate about leveraging technology to build project-based educational platforms and upskilling opportunities, with a proven ability to quickly learn and adapt to new tech stacks and content management environments.

Core Competencies

Web & Frontend:	HTML5, CSS3, JavaScript, TypeScript, React, Next.js, TailwindCSS, Responsive Design, Web Accessibility (AODA/WCAG principles), SEO Optimization, Page Speed Optimization
Backend & Databases:	Node.js, Express, Python, REST APIs, SQL (MySQL, PostgreSQL, SQLite), Server-side Logic, Secure Data Handling
Tools & Infrastructure:	Git/GitHub, Docker (containerization), Linux/Unix Environments, Apache/Nginx concepts, Local Deployment & Virtualization
Soft Skills:	Adaptable to new technology stacks, clear technical documentation, collaborative teamwork, user-oriented problem solving

Featured Projects

findYOU – Full-Stack Productivity & Learning OS | *Python, React, SQLite, Docker* 2026

- Developed a full-stack local productivity engine featuring a Python HTTP backend and a React-based visual scheduler.
- Engineered an isolated task execution and crawling pipeline using Playwright to scrape and organize data feeds.
- Containerized the entire software ecosystem using Docker to ensure environment reproducibility and secure data isolation.

JobScanner Pro – Automated Career Opportunity Aggregator | *Python, Playwright, SQLite, Tkinter* 2025

- Engineered an automated web scraping and ingestion pipeline using Playwright to aggregate active postings from public career boards.
- Integrated SQLite database storage to implement smart filtering, duplicate detection, and application tracking systems.
- Designed a responsive user interface allowing seamless configuration adjustments, data exports, and status monitoring.

captainsolo.ca – Live Interactive Portfolio Hub | *React, TailwindCSS, Three.js, GSAP* 2025

- Designed and deployed a responsive personal portfolio website showcasing web design capabilities and interactive 3D web elements.
- Optimised search engine configuration (SEO) and asset compression to maximize page-speed performance and user engagement.

Work Experience

Freelance Developer & Creative Producer 2020 - Jan. 2026

Independent Contractor

- Designed, developed, and deployed custom web assets and full-stack solutions for a global client base, generating \$30K+ in revenue.
- Maintained an outstanding 4.8/5.0-star rating across 1,400+ completed projects, prioritizing clear and timely client communication.
- Gathered technical specifications, built detailed project scopes, and quickly adapted to client-specific platforms, content systems, and software stacks.

Athletics & Event Production Assistant Aug. 2023 - Apr. 2026

Wilfrid Laurier University Athletics, Waterloo, ON

- Coordinated and produced video coverage for university athletic and recreational events under tight scheduling constraints.
- Managed digital media databases, organizing and cataloging large video archives for quick retrieval and team access.

Education

Computer Science Coursework (General BA Track) Sep. 2021 - Present

Wilfrid Laurier University, Waterloo, ON

Relevant Coursework: Web Technology Foundations, Systems Analysis & Design, Database Systems, Data Structures, Operating Systems

Community Involvement & Awards

- **Digital Literacy Support Volunteer (2024 - Present):** Assisted community members with device configurations, router setups, secure password management, and software navigation, translating complex technical terms into accessible language.
- **Bronze & Silver Medalist – Skills Ontario Competition (Blender 3D), 2018:** Recognized for excellent digital layout and design under strict time constraints.
